## I. AUTHOR INDEX

['P' before a page number indicates "Patent"]

NOTE.—In the transliteration of names originally written in Russian the system followed so far as possible is that of *Nature* 61, 376-7 (1930), in which *g* is used instead of the *w* or *f* of other spellings, *sh* instead of *sch*, *sk* instead of *schk*, etc. Thus Paelov not Penlow, Chugraev not Tschugraeff. To make quite sure, users of the index should in such a case look under both spellings.
